

P4

MATHEMATICS

Mr. Bogere Richard
St. Savio Junior Sch. Kisubi
Mathematics

- Find the product of 20 and 5
- Name the set symbol below
{ }
- Draw an abacus and represent 3012 on it.
- Given that $G = \{\text{letters of the word paint}\}$, list the members of G
- Write 8065 in expanded.
- Simplify: $6y+3y-7y$

- How many hours are in 180 minutes?
- Round off 270 to the nearest ten.

11. The table below shows the number of domestic animals reared on Richard's farm. Study it carefully and answer the questions that follow.

Type of animal	No. of animals
Goats	17
Cattle	10
sheep	23
Rabbits	18
Donkeys	02

- Find the number of rabbits and goats reared on the farm.

- Find the angle that is complementary to 85° .

- Add: weeks days
7 5
+ 3 3
- Subtract: m cm
8 40
- 5 80
- Convert 600cm to metres

- Which type of animals is least reared on the farm?

- Why do you think the farmer rears donkeys?

- Calculate the total number of animals reared on Richard's farm.

SCIENCE

Mr. Ainebyoona Tobias
Namagunga Primary Bdg Sch.
Integrated Science

- Name the human body organ that stores information.
- Which type of accident is caused by wet heat on the skin?
- How are palm leaves useful to people?
- Give a reason why meat should be cooked well before eating it.
- Write one modern method of preserving food.

The diagram below shows ventilation on a house. Use it to answer questions 6 and 7.

- Name part marked K.
- How is part marked P useful on a house?

- State one importance of keeping a hutch clean.
- Mention one natural source of energy.
- State one way through which vectors spread diseases.
- Mention two types of clouds.

12. Match the garden tools below to their functions.

- | A | B |
|------------|----------------------------|
| Panga | - Digging in rocky grounds |
| Secateurs | - Harvesting rice |
| Forked hoe | - Cutting small trees |
| Sickle | - Pruning |

- Give the meaning of a nursery bed.

- Mention two seeds that are first planted in a nursery bed.

- State any one way of caring for seedlings in a nursery bed.

SST

Mr. Filbert Engirot
Seeta Junior School
Social Studies
(Mukono Campus)

- How is the item below helpful to people during rainy weather?

- Why does the government of Uganda build hospitals in our communities?

- How can a P4 child help to keep law and order?

- Give any one reason why a community should have a market?

- What is culture?

- Why are children given names?

- State any to importance of culture.

-
-

- Name any one local item from the environment used to support P.E lessons.
- Why do people build houses in our communities?
- How is a teacher an important person in the community?
- What is the meaning of Rural - Urban migration?

10. Match items in list A to those in B correctly

List A

- Veterinary doctor
- District Probation Officer
- Resident District Commissioner (RDC)
- Speaker of Parliament

List B

- Chairs meetings in parliament
Promotes security
In charge of family and children's affairs
Treats sick animals

ENGLISH

Ms. Jane Nakibuye
Mothercare prep sch Bunamwaya
English

Fill in the blank spaces with the most suitable word

- It is because the sun is shining brightly.
- A person treats sick people is a doctor.
- An elephant is....., but a rabbit is small.
- I have a glass of water, please?
- We don't have firewood to prepare lunch.

Use the correct form of words given in the brackets to complete the sentences

- What a dress you are wearing! (wonder)
- Otim is a flower pot now. (make)
- My mother eight thousand shillings for bread and butter yesterday. (pay)
- nails is a bad habit. (bite)
- breed in stagnant water. (mosquito)

11. Read the passage below and answer questions that follow in full sentences

We get everything we need from our environment but at many times we don't mind caring and protecting it.

For many years, people have been clearing forests to get timber for building houses and making furniture, burning charcoal and getting land for growing crops and settlement, however other people dispose plastic waste which does not rot so it spoils the soil and also contaminates freshwater sources such as lakes, rivers and ground water. The contaminated drinking water becomes a problem to human lives.

It is very important for people to stop such activities so as to protect our environment for future use. People should plant more trees after cutting some, manage the plastic waste through recycling and then the world would be a better place for us all.

Questions

- What is the passage about?
- Why do people clear forests?
- What contaminates freshwater sources?
- Mention any two fresh water sources that are contaminated.
-
-
- What do you think is likely to happen when people

drink contaminated water?

f) When should people plant more trees?

g) How will people manage plastic waste?

h) According to the passage, where do people get what they need?

- Write a word or group of words similar in meaning to:
i) furniture
ii) dispose
