DAYS AND MONTHS IN A YEAR

The months that have 30 days are April, June, September and November.

The rest of the months have 31 days except February which has 28 days in an ordinary year and 29 days in a leap year.

An ordinary year has 365 days while a leap year has 366 days. A leap year happens after every 4 years.

“Learn these facts by heart to make yourself updated”.

Questions.

1. Which months have thirty days?

2. How many months have thirty-one days?

3. Why is February different from the rest of the months?

4. What is the difference between an ordinary year and a leap year?

5. How often does a leap year happen?
